

Language

VM

vm Plugin

```
graph TD; Language[Language] --> VM[VM]; VM --> vmPlugin[vm Plugin]; vmPlugin --> Language;
```

The diagram illustrates a bidirectional relationship between three components. At the top is a white box labeled 'Language'. In the middle is a dark gray box labeled 'VM'. At the bottom is a hatched box labeled 'vm Plugin'. A white arrow points from the 'Language' box down to the 'vm Plugin' box. A black arrow points from the 'vm Plugin' box up to the 'Language' box. The 'VM' box is positioned between the other two, but has no direct arrows connecting it to them in this specific diagram.
